

Information Pack for 2011-12

Our mission is to share in the ministry of Calvary Chapel by offering Biblical Christian education for the children of Christian parents. It is our purpose to provide **affordable, biblically sound, academically excellent, and technologically advanced** education for all the children who attend CCA by working closely with the parents who have the God-given responsibility to educate their children. It is our goal to help determine the best educational placement and program for each student. We strive to accept as many children as possible that can benefit from an education at CCA.

Affordable – The average cost of tuition is \$2500 per year!

Biblically Sound – The foundation of all we teach and practice at CCA is the Word of God. Every school day begins with bible study as we seek establish a solid foundation in the life of every student. All of our teachers are Christians and teach all subjects with a biblical worldview. Our hope is that each student will be rooted and grounded in the Word of God, and will be able to stand strong in their faith!

Academically Excellent – We are a **fully accredited** school utilizing a variety of publishers to formulate a very strong and academically challenging curriculum. Our curriculum starts with a superior phonics based reading program. All of our Kindergarteners are regularly able to read by January. Our curriculum ends with challenging electives in Calculus, Physics, and other A.P. level courses.

Technologically Advanced – Our classrooms are equipped with the very latest and best technology available today in education. Here at CCA we believe the integration of technology into the learning model is imperative for an excellent education. Therefore, we utilize the *ActivClassroom*; an all-in-one interactive, collaborative, multimedia experience designed to capture the imagination of any type of learner—from the auditory to the visual to the kinesthetic and everywhere between. The centerpiece of each *ActivClassroom* is an 87 inch Promethean Interactive Whiteboard.
